

Correction

 Script Python

```
1 def rangement_valeurs(notes_eval):
2     lst = [0]*11
3     for note in notes_eval:
4         lst[note] += 1
5     return lst
6
7 def notes_triees(effectifs_notes):
8     triees = []
9     for i in range(11):
10         if effectifs_notes[i] != 0:
11             for _ in range(effectifs_notes[i]):
12                 triees.append(i)
13
14 return triees
```
