

Correction

 Script Python

```
1 def recherche(tab, n):
2     indice_solution = len(tab)
3     for i in range(len(tab)):
4         if tab[i] == n:
5             indice_solution = i
6     return indice_solution
```
