

Correction

 Script Python

```
1 def correspond(mot, mot_a_trous):
2     if len(mot) != len(mot_a_trous):
3         return False
4     for i in range(len(mot)):
5         if mot[i] != mot_a_trous[i] and mot_a_trous[i] != '*':
6             return False
7     return True
```
