

Correction

Script Python

```
1 def rendu_monnaie(somme_due, somme_versee):
2     pieces = [1, 2, 5, 10, 20, 50, 100, 200]
3     rendu = []
4     a_rendre = somme_versee - somme_due
5     i = len(pieces) - 1
6     while a_rendre > 0 :
7         if pieces[i] <= a_rendre :
8             rendu.append(pieces[i])
9             a_rendre = a_rendre - pieces[i]
10        else :
11            i = i - 1
12    return rendu
```
