

Correction

 Script Python

```
1 def tri_selection(tab):
2     for i in range(len(tab)-1):
3         indice_min = i
4         for j in range(i+1, len(tab)):
5             if tab[j] < tab[indice_min]:
6                 indice_min = j
7         tab[i], tab[indice_min] = tab[indice_min], tab[i]
8     return tab
```
