

Correction

Script Python

```
1 def inverse_chaine(chaine):
2     result = ''
3     for caractere in chaine:
4         result = caractere + result
5     return result
6
7 def est_palindrome(chaine):
8     inverse = inverse_chaine(chaine)
9     return chaine == inverse
10
11 def est_nbre_palindrome(nbre):
12     chaine = str(nbre)
13     return est_palindrome(chaine)
```
