

Correction

 Script Python

```
1 from random import randint
2
3 def lancer(n):
4     return [randint(1,6) for _ in range(n)]
5
6 def paire_6(tab):
7     nb = 0
8     for elt in tab:
9         if elt == 6:
10             nb += 1
11     if nb >=2 :
12         return True
13     else:
14         return False
```
