

Correction

 Script Python

```
1 def nombre_de_mots(phrase):
2     nb_mots = 0
3     for caractere in phrase:
4         if caractere == ' ' or caractere == '.':
5             nb_mots += 1
6     return nb_mots
```
