

Correction

Script Python

```
1 def empaqueterR(liste_masses, c):
2     n = len(liste_masses)
3     nb_boites = 0
4     boites = [0]*n
5     for masse in liste_masses :
6         i = 0
7         while i <= nb_boites and boites[i] + masse > c:
8             i = i + 1
9             if i == nb_boites + 1:
10                 nb_boites = nb_boites + 1
11                 boites[i] = boites[i] + masse
12     return nb_boites + 1
```
