

Correction

 Script Python

```
1 def multiplication(n1, n2):
2     if n1 < 0:
3         return -multiplication(-n1, n2)
4     if n2 < 0:
5         return -multiplication(n1, -n2)
6     resultat = 0
7     for _ in range(n2):
8         resultat += n1
9     return resultat
```
